

Take the Government out of the Abortion Industry

(Unborn Baby 18 Weeks)

To our Country Supervisors, State Legislators, and all Public Officials:

The Government is in the abortion industry, please take it out!

Whereas: “ The care of human life and happiness, and not their destruction is the first and only legitimate object of good government.” Thomas Jefferson. **Whereas:** Public officials at all levels have a fiduciary responsibility to ensure that taxpayer money is expended to promote the safety and protection of those who cannot protect themselves.

Reproductive Rights License plates. The pro-abortion lobby is asking California to create yet another fund to sponsor abortion, and to do so with "Celebrate Choice" license plates. But true choice would include allowing the baby to live. Yet they refuse to establish a "Celebrate Life" license plate. We the undersigned, urge opposition to authorizing a pro-abortion license plate unless there is a "Celebrate Life" license plate also made available.

Note: CPLC removes all email addresses before delivering petitions to legislators. CPLC needs your e-mail to inform you of how your representatives vote and to help **you** hold them accountable. We do not sell this information.
